2. Best Practice: PVTs has adopted and maintains appropriate written procedures and controls for Escrow Trust Accounts allowing for electronic verification of reconciliation.

Purpose: Appropriate and effective escrow controls and staff training help title and settlement companies meet client and legal requirements for the safeguarding of client funds.  - On at least a monthly basis, a Three-Way Reconciliation is performed reconciling the bank statement, check book and Trial Balances.

3. Best Practice: PVTs has adopted and maintains a written privacy and information security program to protect Non-public Personal Information as required by local, state and federal law.

Purpose: Federal and state laws (including the Gramm-Leach-Bliley Act) require title companies to develop a written information security program that describes the procedures they employ to protect Non-public Personal Information. The program must be appropriate to the Company's size and complexity, the nature and scope of the Company's activities, and the sensitivity of the customer information the Company handles. A Company evaluates and adjusts its program in light of relevant circumstances, including changes in the Company's business or operations, or the results of security testing and monitoring.

 - Access to Non-public Personal Information is restricted to authorized employees who have undergone Background Checks at hiring.

- Uniform Oversight of service providers ensures compliance with a Company's information security program.
- These Oversight Procedures are audited regularly.
 - Companies should review their privacy and information security procedures to detect the potential for improper disclosure of confidential information.
- All Customers and Law Enforcement Officials are immediately notified of any security breach.

- Our privacy and information security program is posted on our Website [www.pvts.com].
